REPLY TO
ATTN OF: DEV

SUBJECT: Youngstown Test Annex, NY Installation Restoration Program (IRP) Coordination Meeting

TO: ASD/PMD (Mr John Nepute)
RADC/DE (Mr Dan Bollana)
✓C EMRK-ED-TD (Mr Lee Fuerst)
DOE, Oak Ridge National Labs (Mr Gordon Dipppo)

1. We are currently conducting a preliminary assessment (PA) at the RADC Youngstown Test Annex, NY. Due to the complex nature of the land transfers which have occurred at the site we propose a meeting on 27 July 88 at 0830 in Buffalo, NY. We will meet at Acres International Corporation, 140 John James Audubon Parkway, Amherst, NY (a map is attached). A cooperative investigation among the parties involved will be proposed. A site visit will be conducted in the late afternoon on 26 July 88.

3. Please prepare a short presentation for the meeting covering your IRP efforts at Youngstown. Send a copy of pertinent documentation to each person on the attached list.

2. The Air Force Plant 38 investigation being conducted by OEHL is in remedial investigation (RI). COE is investigating a portion of the Lake Ontario Ordnance Works (LOOW) which includes AF Plant 38. Some areas of the LOOW are into the RI phase and others have not yet been investigated.

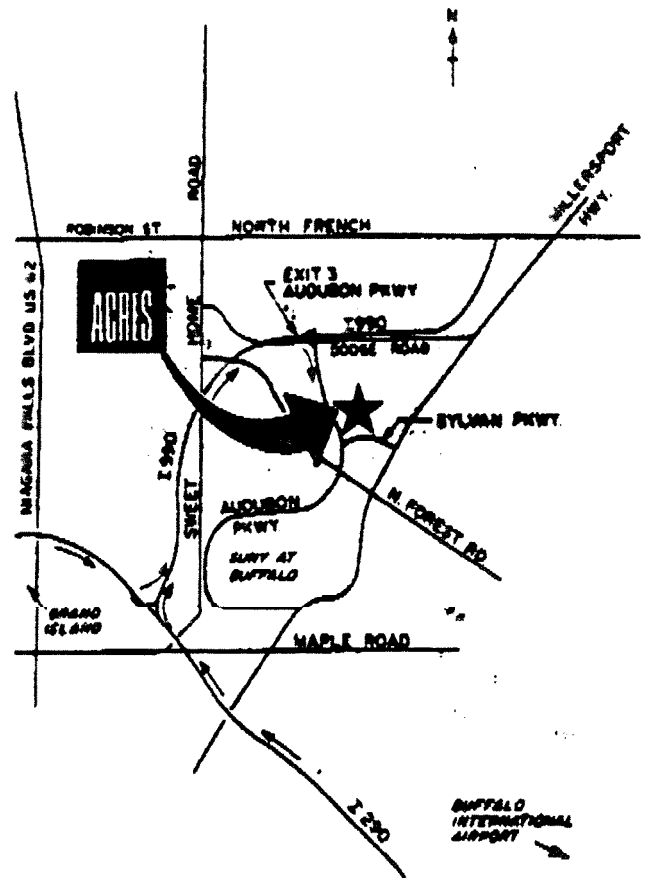

4. Please contact Ms Carrie Weisse (981-6341) in my office if you have questions.

FRANK P. GALLAGHER III, Col, USAF, BSC
Director, Environmental Planning
Deputy for Engineering & Services
DCS/Test & Resources
